

Dear participant,

Thank you for participating to nutritionDay worldwide in 2022. Your country report consists of the following sample size:

Number of participated center:	3
Number of participated units:	13
Number of patients:	235
Number of patients who gave consent:	148
Number of patients completing Sheet 3a:	148
Number of patients completing Sheet 3b:	148
Number of patients with 30-day outcome assessment:	103

This report compares your country data to the international reference database based on data from nutritionDay 2018-2021.

The report consists of 5 parts:

Part I reflects capacity and staffing of your hospitals.

Part II reflects the organisation and the structure of the units.

Part III describes patient's demographics, the clinical information and the outcome.

Part IV is the summary of information on patient's nutrition, history and health status.

Part V COVID-19

Participate again to next year's nutritionDay in November 2023! Repeated participation allows benchmarking and monitoring the nutrition care in your country. For more information visit www.nutritionDay.org or contact us at office@nutritionDay.org!

Best regards from the nutritionDay-Team!

Prof. Dr. Michael Hiesmayr
